

## TWO ELEMENTARY, MY DEAR

Music & Lyrics: Bob Dorough

Sung by: Bob Dorough

Animation: Paul Kimmelman and Associates

Forty days and forty nights, didn't it rain, children?  
Not a speck of land in sight >> Didn't it, didn't it  
rain?

But Noah built the ark so tight, they sailed on,  
children.

And when at last the waters receded,  
And the dove brought back the olive tree leaf,  
He landed that ship near Mount Ararat.  
And one of his children grabbed Noah's robe and  
said...

>> (Hey Dad, how many animals on this old ark, anyway,  
huh?)

Elementary, my dear, two time two is four.  
Elementary, my dear, two time three is six.  
Elementary, my dear, two time four is eight.  
Elementary, my dear, two time five is ten.

Two times one is two, of course, and it must occur to  
you,  
You get an even number every time you multiply by  
two.

Elementary, my dear, two time six is twelve.  
Elementary, my dear, two time seven is fourteen.  
Elementary, my dear, two times eight is sixteen.  
Elementary, my dear, two times nine is eighteen.

Two times ten is twenty; eleven twice is twenty-two.  
Double twelve that's twenty-four; thirteen twice is  
twenty-six.  
Fourteen twice is twenty-eight; fifteen twice is  
thirty.  
Now you build it up on thirty.

Sixteen twice is thirty-two, elementary.  
Seventeen twice is thirty-four, elementary.  
Eighteen twice is thirty-six, elementary.  
Nineteen twice is thirty-eight, elementary.

Twenty twice is forty, and it must occur to you,  
You can double any number, all you do is multiply by  
two.

Elementary, my dear, two time two is four. Wool!

Elementary, my dear, two time three is six. Yeah.  
Elementary, my dear, two time four is eight. Wool!  
Elementary, my dear, two time five is ten. Yeah.

(Now, if you want to multiply two times 174, or some  
big number like  
that... Two times 174 equals two times 100 plus two  
times 70 plus  
two times 4, that's all. So two times 174 equals 200  
plus 140 plus  
8, or, 348. It's elementary!)

Elementary... elementary...

Twice 32 is 64, elementary. Twice 33 is 66,  
elementary.  
Twice 34 is 68, elementary. Twice 35 is 70,  
elementary.

Yeah, yes! It's elementary, yeah....

(Now, what's two times 98?)  
>> (Aww, that's hard!)  
(No, it's very simple. Two times 98 equals two times a  
hundred,  
minus two times two. That's 200 minus four: 196.  
Elementary.)

Forty days and forty nights, didn't it rain, children?
